“The great challenge for a book of this kind is to maintain cohesion among a multiplicity of authors and perspectives, and in this it has been entirely successful. Its overall framework of four principles that distinguish parliamentarism is clear and convincing, and its openness to different methodological approaches enables contributors to transcend traditional disciplinary limits.” · **Olivier Rozenberg**, Sciences Po

“This collection offers an impressive historical and geographical sweep, covering a range of conceptual issues. The individual chapters provide both breadth and depth, and they are well situated within wider theoretical concerns.” · **Alan Finlayson**, University of East Anglia

Parliamentary theory, practices, discourses, and institutions constitute a distinctively European contribution to modern politics. Taking a broad historical perspective, this cross-disciplinary, innovative, and rigorous collection locates the essence of parliamentarism in four key aspects—deliberation, representation, responsibility, and sovereignty—and explores the different ways in which they have been contested, reshaped, and implemented in a series of representative national and regional case studies. As one of the first comparative studies in conceptual history, this volume focuses on debates about the nature of parliament and parliamentarism within and across different European countries, representative institutions, and genres of political discourse.

Pasi Ihalainen is Professor of Comparative European History at the University of Jyväskylä, Finland.

Cornelia Ilie is Professor of Business Communication at Zayed University, UAE.

Kari Palonen is a Professor of Political Science at the University of Jyväskylä, Finland.
